Welcome to the EDPB Website Auditing Tool

ABOUT THE TOOL

HOW THE TOOL
WORKS

PROVIDE NEW
ANALYSIS

CREATE
REPORTS

KNOWLEDGE
BASE

The **EDPB Website Auditing Tool** is developed by Jérôme GORIN for the **European Data Protection Board** under an **SPE project** contract. It is a Free Software project, aiming to provide a tool to collect evidence, analyse them and generate reports regarding trackers that are being used by websites. It is intended to be used to facilitate website inspections.

Click on How the tool works to get a first introduction. At any time, you can come back to this page by clicking on the help button on the left sidebar.

The EDPB WAT is licensed under the *European Union Public License (EUPL) 1.2+*. The source code is available at <https://code.europa.eu/edpb/website-auditing-tool>.

The software is built upon the work of several open-source projects, namely **Project WEC**, **EasyList** and **Electron**. Click on About the tool to get more information on these projects.

All languages noted (MT) have initially been translated automatically with eTranslation by Directorate-General for Translation. Please report any error on our [GitLab](#) .

EDPB Website Auditing Tool 2.0.0

The screenshot displays the EDPB Website Auditing Tool interface. On the left is a sidebar with navigation options: Analysis, BROWSE, NEW, LIST, Sessions (AUDI > FIRST VISIT), Editor (KNOWLEDGE, TEMPLATE), Other (SETTINGS, HELP). The main area shows a browser window with the URL <https://www.audi.com/en/>. The browser's address bar includes a search icon circled in red. The browser content shows the Audi website with a 'Cookie Settings' dialog box. The right sidebar of the tool contains a list of analysis categories: Cookie logs, Local Storage, Use of HTTPS/SSL, Traffic Analysis, Web Forms with non-encrypted Transmission, Beacons, and Browser informations. A 'Stop and save the analysis' button is visible at the top of this sidebar.

Cookie Settings

We, AUDI AG, Auto-Union-Straße 1, 85057 Ingolstadt, Germany, alone or in cooperation with our affiliates and partners ("We", "Our"), use own and third party services that use cookies and similar technologies ("Services") on our website that help us to improve our website, analyse traffic and usage and to display content tailored to your interests, including personalised advertisements.

To use these services, we need your consent. By clicking on "Accept all", you declare your consent to the use of all cookies and similar technologies. You can also declare your consent by individually clicking on the sliders for each category of cookies and save these preferences by clicking on "Save settings and proceed". In case you do not click any of the sliders, then only the essential cookies (e.g. Ensignten Privacy Manager, our consent management tool) are used. You are not legally obligated to consent to use of cookies, but if you do not provide consent, you may not be able to use certain of our Services. You can manage your cookie preferences based on the categories of cookies listed below. You can withdraw your consent at any time, with effect from the time of the withdrawal. For withdrawal of consent, please refer to the "Cookie Settings" in the footer of the website. Your data may also be processed in third countries outside the EU such as the USA, which do not have an adequate level of

EDPB Website Auditing Tool 2.0.0

The screenshot shows the EDPB Website Auditing Tool 2.0.0 interface. The main window displays the Audi website (https://www.audi.com/en/) with a 'Cookie Settings' overlay. The tool's sidebar on the left includes sections for Analysis, Sessions (with 'AUDI > FIRST VISIT' selected), Editor, Knowledge, Template, and Other (with 'SETTINGS' selected). The right-hand panel shows a list of audit findings: Cookie logs, Local Storage, Use of HTTPS/SSL, Traffic Analysis, Web Forms with non-encrypted Transmission, and Beacons. A table under 'Beacons' shows the following data:

URL	Freq
https://www.audi.com/akam/13/pixel_1e490008	1
https://www.audi.com/akam/13/1e490008	1

Below the table, there is a 'Browser informations' section. A 'Stop and save the analysis' button is visible in the top right of the tool's interface.
